ELEVENTH DAY.

8. On Tenures, &c.-Nelson, Harris, Flanders, Bull,

The question of appointing an Assistant Secreta-

Chatfield-one to leave the appointment to the Pres-

ident and Secretaries, and the other to elect by an

open vote-were negatived. Mr. Angel withdrew

his proposition for an election next Monday, and

Mr. Jordan's plan was adopted. The result of the

first ballot was as follows. Votes, 112: Philander B. Prindle 50; Francis Seger 21; Tho-

others 4 : blank 1. No choice.

mas C. Loomis 19; James R. Rose 14; E. S. Marsh

On the second ballot the votes given were 114— which Prindle had 55; Seger 42; Loomis 9;

Rose 4; sundries 4. No choice. Third ballot, 114 votes—Prindle 53; Seger 55;

Loomis 4; blank, &c. 2. No choice.

Mr. Chatfield then proposed that Francis Seger
be appointed; to which Mr. Patterson moved an

amendment, or, in substance, to elect Philander B. Prindle. The Ayes (for Prindle) were 49—the Noes 65. Amendment lost. Mr. Seger was then

From our Extra of Saturday Morning. DISPATCHES FOR THE TRIBUNE

BY MAGNETIC TELEGRAPH And by Horse and Locomotive Express.

The following highly important intelligence was cered at the North American Office in Philadelphia in Mence, and Expressed by horses and locomotives to The New York Tribune, the operations of the Telegraph being still suspended]

Peace with England Secured! THE OREGON QUESTION SETFLED! THE 54 40. EXTINGUISHED !

The Senate in favor of the Treaty-38 to 12. THE COUNTRY SAVED FROM WAR!

We hasten to lay before our readers the announcenent which has just reached us by Telegraph and Loomotive Express, that the Senate has voted, 38 to 13, to advise the President to make a Treaty for the Settlement of the Oregon Question on the basis saggested by the British Government.

The terms of the Treaty, though not officially ansounced, are, no doubt, substantially as named in revious dispatches. This is great news, not for its bearings alone upon this Country, but upon the whole civilized world.

It is a triamph of true Patriotism over selfish and brutal Passion of which both Great Britain and the States may well be proud. May no untoward circumstance prevent the consummation of the work so auspiciously begun! The laurels won is this contest are unstained by human blood, and still bloom in undying beauty when those achieved by War and Carnage are trampled in the dust!

The great question of the Session is settled. They have saved the Country from a War, and secured an honorable adjudication of a much vexed question. The Senate has given the advice to the President by the constitutional majority, and a Treaty ediately be framed on the terms offered by Great Britain.

The vote was 38 Ayes to 12 Nays. Mr. Corwin beent from sickness. Mr. BARROW and Mr. CRIT-TENDER absent in Virginia. A fourth Whig vote could have been obtained if it had been necessary. Mr. Archison did not vote, and Mr. BRIGHT was

The following letter of a date anterior to that of the foregoing dispatch was intended to reach us at an earlier hour, but was delayed by the breach in the Telegraph.

As explanatory of the causes of action on the part of the Senate, and developing the position of Sir Robert Peel and the aspect of British politics, it is

WASHINGTON, June 12-64 P. M. I did not write, because my own judgment was in doubt as to important matters connected with the great question which is now pending. Since then, have conferred personally with more than twenty Senators and can now speak with more confidence. The terms before the Senate, though not in form, | place.] are substantially the ultimatum of the British Ministry. They were not put in that shape, becaus e Sir Robert Peel did not desire to embarrass his successor

if one should grow out of it. This may be news to the country, but information

is in possession of the Senate showing that Sir Robt. Peel will probably resign within thirty days. A portion of the Tories have signified to Lord John Russell and his friends, that they will form a coalition to expel the Ministry whenever they are ready Sir Robert is opposed to this condition of things and will be apt to take the Home Labor Bill, as the shance to declare himself fully and to relinquish the Premiership.

Last night a good feeling prevailed as to the re sult-had a vote been taken yesterday, the twothirds could have been obtained, but one difficulty is now to be apprehended and that is as to the amendments which may be offered-For example: Great Britain asks for the navigation of the Columbia River during the charter of the Hudson's Bay Company, which expires in 1863 (and not in 1858, Byon printed me.) Some Senators fear this stipulation would cover a renewal of the charter. The legal opinion is that it would not.

Those who raise the objection desire to insert clause to that effect. This would involve the necessty of returning the proposition to England; for Mr. Pakenbam's hands are tied as to any alteration .-This difficulty will, I hope, be obviated.

The proposition of England submits, that her privilege of navigating the Columbia never shall be subject to the United States laws of pavigation and ference, now in existence, but no farther restriction thali be imposed without the reference to this right. The article stipulating for remuneration for British ettlements below the line of 49°, provides for com-Passion for any American province North of it.

The following is the most reliable account of the Haculty of the Institute, will deliver two loctures each:

opposition as it now stands Messrs. Fairfield, Jenbess, Atherton, Dickinson, Sturgess, Cameron, Cass, Atchison, Breese, Semple, Allen and Hannegan, and Mr. Bright also, but he is still absent in Virginiaand is not expected before Monday. The following are doubtful: Messrs. Bagby, Tur-

bey, Westcott and Simmons. The last will probably go right on the great struggle. Mr. Barrow and Mr. Crittenden are absent at Fortress Monroe, and will not return before Monday. Mr. Evans is expected back to-day, and then the Senate is accountod for as full. Mr. Atchison has paired off with Mr. Crittenden. The Whigs will relieve him if the constitutional majority can be obtained without his vote; if not, be will be kept in "durance vile."

COPPER SMELTING .- A new interest has been COPPER SMELTINEG.—A new interest has been awkened in regard to Copper—and we now not only hear of extensive mining operation at the west, but of preparations for smelting Copper at points on the Lakes. Gen. C. M. Reed, and others, have organized a company for that purpose at Erie, Pa., in anticipation of a rich yield of one from the mines of the Erie and Buffalo Copper Company.

DEATH OF GEN. PASTEUR.—Died, in Newbern, N. C. on Thursday night last, of disease of the heart, Major General John I. Pasteura, in the 55th year of his age. Gen. Pasteur had just returned late in the evening from the Theatra, where he had been engaged in drilling the new volunteers for Texas, and complained much of an internal affection, retired to bed, and in three minutes was a corpse! During our Last War commanded the marines on board of that daring and successful privateer, the Snap Dragon, and acquitted for himself the enviable fame of a brave and valiant officer and humane and marganimous gentleman. He was one of the best THE CREEKS AND PAWNEE MAHAS.—It is reported, but we know not upon what authority, that the Runners sent out by the Creeks to invite the Pawnee Mahas to attend the Council as the Salt Plains, had a fight with some of them after they had visited them, and killed averal of them. The Pawnees were the aggressors. We have no particulars. [Cherokee Adv. May 21st. enviable fame of a brave and valiant officer and humane and magnanimous gentleman. He was one of the best practical Printers in this country, and had a high and becoming sense of the freedom of the Press and a disdainful contempt of its licentiousness and abuse. He was associated with Mr. Thomas Watson as coëditor of the Carolina Sentinel, but differing in politics with the gentleman, he retired from the editorial chair of that paper, and became sole Editor of the Newbern Spectator. Of the two great political parties which divide the country, General Pasteur was a Whig—a Whig from principle and an honest belief that the well being and perpetuity of our Republican Institutions depended upon the establishment of Whig principles; but while he was a Whig NEW-YORK AND BOSTON RAILWAY.—The bill to And JORK AND BOSTON HALLWAY. And South Railway Comhoopportse the New-York and Boston Railway Committee,
has passed the Connecticut House of Representatives
by a decided majority. By the terms of the bill, the
Company is authorized to cross the Connecticut River,
at Middletown, on a bridge having a draw of eighty-five
feet to accommodate the navigation of the river.

The Abram Wilcox, who was tried at the last lishment of Whig principles; but while he was a Whig from no selish feelings, hd was a generous political optom from the Stratoga Co. Court, for the murder of Sami, bas been found Guiltz, and sentenced to be hung on the 28th day of July.

One Saturday shed that while thus engaged, a wag in the company proposed that Mr. Worcester should be excused from farther laber, origins as a reason that he would otherwise be compelled of Nature and of Mind. The great Libel case, James Watson Webb giving as a reason that he would otherwise be compelled vs. Bacon, in the Superior Court, was on Saturday to preach an old sermon on the ensuing Sabbath. minister immediately retorted that it could make little We understand that the damages being found at SIX CENTS, the Defendant is liable for a like amount of costs!

We understand that the damages being found at SIX CENTS, the Defendant is liable for a like amount of costs!

The case of Daniel Burinett, charged with a universal shout. It was the custom of the town at the annual March and the progress.

It was the custom of the town at the annual March and Progress.

It was the custom of the town at the annual March meeting to confer on all recently married men the office of hog reeve. After his second marriage certain persons indulged their propensity for a joke so far as to confer this distinction upon Mr. Worcester. After his election had been duly declared, he made a speech in acknowledgment of the honor, in which he said that, while they had been sheep, he had endeavored to be to them a faithful shepherd; and if they now insisted on turning them selves into swine, he would not forsake them, but do the best he could to keep them out of mischief.

A tribute to the memory of this good and venerated man will doubtless be prepared by some one qualified for the task; but his best culogy is written in the hearts of those whom he led in paths of righteousness and of the search of the service of the search of t

THE COURTS -The Jury, in the case of Elizabeth Pander vs. Lockhart & Co. in the Superior Court, being an action for false imprisonment, returned a verdict for plaintiff of \$125. In the United States Court, the Jury, in the case of Blakes rs. Parker, being an action for the alleged infringement of patent for Castors, the Jury have been out all night, and had not agreed at the time of our

Very Important Arrival-Peace with the Camanches, and rumors of the disturbances on the Texas borders contradicted.

The steamer Rodolph, arrived here last evening from Port Caddo, bringing as passengers Capt. T. S. Alexander, lady and Miss Alexander; two Companies of the 6th Regiment of Infantry, and 95 rank and tile from Fort Towson, commanded by Capt. Alexander, and Lieutenants Wetmore, Burnell. until his removal from this city, some years since, to Ernest, Dent, and Easton, attended by Dr Simpson. Also, Col. M. G. Lewis, Commissioner to treat with the Indians; Gen. Mascona, G. J. Wilson, Major R. S. Peighbors, J. Coyle, R. Cook, and 41 Indian Chiefs, and four servants, from the Camanche Ing since the election Friday evening. Hon. Marlon Dick-ERSON, President elect, occupied the Chair. The President arrival, as peace with 13 Indian tribes bordering on Texas is now guarantied. The treaties with all these have been made by Col. Lewis, in connection with Judge Butler, of S. C. and the delegations are taken to Washington, both with the purpose of having the treaties ratified, and to acquaint these " men of the with the extent of our country, and the number of its inbabitants; on which subjects they have at present very obscure ideas. They represent at least 50,000 souls, all of whom will be peaceful, at least during the absence of their Chiefs, and we hope "for all time."

The various tribes represented are the Caman-

ches, Lapan, Ton-ke-way, Waco, Witchata, To-wack a-nie, Anno-dor rol, Caddo, Ion-i, Kichi, Delaware, Ponamhow, Bede and Bu-lux-ee.
[N. O. Tropic, June 5.

FORTIFICATION OF WASHINGTON .- The Baltimore Sun gives the following as plan to fortify Washing-ton in case of war:

"An army might be raised sufficient to keep off Satan himself, upon the following plan: Let the President announce three vacancies in any of the Departments. In three days a sufficient number of office-seekers would arrive to swallow all the troops that Victoria could muster,

Without pepper or salt."

THE POISONING CASE.—Dr. Bertrand is still en-THE POISONING CASE.—Dr. Bertrand is still engaged in discovering the cause of the death of Fitzsim mons, late first mate of the brig Ganges. As far as the chemical analysis has gone, it appears that the butter used in cooking contained poison. We mentioned yesterday morning that the water casks were also poisoned, so that it is reasonable to suppose that the mysterious sickness and death on board of this vessel, must have been the act of design.

If Mutual Benefit Life Insurance Company, No. 11 Wall-st.—It is now a year since this institution commenced the business of Life Insurance on the liberal plan then first announced in its prospectus. That the principles therein contained have met with the approbation of those who have sought the advantages which such an Institution affords in making provision for a family, needs no other proof than the statement of the fact that 1701 Policies have been issued, and that premiums to the amount of \$154,289 25 have been received during that period.

The amount of funds received for premiums has already established a large capital, which must rapidly increase by the payments of the second year's premiums, the accruing interest and the current receipts for new policies. The accumulation from these sources enables the Directors to fulfil their promises to lay up a reserve fund to meet the increasing ages insured—equal to re-insuring every life—pay all demands for losses, and to divide large profits among the insured.

This preparation is a combination bitheric unkown in the history of Medicine, differing entirely in its character and operations from the various preparations of Sarsaparilla which have been at different times offered to the public. It sates specifically upon the whole system, threely bringing it under its direct and immediate Influence. Advanced in the control of the public of the property of the control of the public of the property of the control of the public of th

bried different remedies without recoving any potasses benefit. I then went into the New-York Hospital, and remained for fourteen weeks under treatment, which produced temporary relief. After leaving the Hospital the disease returned in a few days, and, when given up by my friends and despairing of relief from any source, I heard of your Sarsaparilia, and immediately resolved on giving it a trial. The first bottle relieved me of all the distressing symptoms, and did me more good than all the medicine I had taken for years before. A continuation of your Sarsaparilia, in combination with your Salt Remon applied externally, effectually removed the disease, restored me to health, and I sim now able to attend to my business. I would say to all, and particularly to my German countrymen, if you are suffering with acrofuls or any disease similar to what I have been, use the medicine that has been tried, proved and acanowiedge do be all that is required to bring health to the debilitated frame. Yours sincerely, FREDERICK DICKEL, Cabnet Maker. The following testimonial to the value of the Sarsaparilla, is from the Rev. Luther Wright, aged 76 years, Congregations.

LOOK AT THE PROOFS!

IT WOULD FILL MANY COLUMNS to publish only a portion of the certificates and restimontals which have been sindly and voluntarily given, by respectable person who have experienced valuable benefit from the use of the

GALVANIC RINGS AND MAGNETIC FLUID.

The following is from the Hon. W. A. Thompson, late member of Congress from the State of New-York, and present Judge of Smillyan county:

To Dr. Christie—Dear Friend—I am now \$5 years of

many years past. I can surribute the result to nothing but your simple and efficactions remedies.

With high respect, sincerely yours, W. A. THOMPSON, Thompsoncide, Sultivan CO. N. Y. March 12, 1846.

A LETTER TO A FATHER.

TO DR. CHRISTIE'S AGENT—Sir: The following is the purport of a letter from my daughter, who has received so much benefit from the use of Christie's Gaivanic Rings and Finid (which I purchased from you) that I have thought proper to give for your satisfaction, as well as for the benefit of those who may be similarly afflicted. You are still-berty to use it as you think proper. Respectfully, &c.

"FROSTBERRY, Alleghany Co. Md.

Dear P.—I wrote to you some time since, and informed you of the benefit I received from the Gaivanic Rings and Magnetic Finid you set time. I have gouten entirely over my immenses and never had better health in my life, if as good; and I truly believe, if I had sor got the Rings and Fluid, I would now save been dead. Before I used them I could not sleep and was falling away to nothing. I had been for eight weeks unable to dreas myself, or at times to turn in my bed without help. The use of Christie's Rings and Fluid share restored ms to entire kealth. Mr. Bell was also afflicted for two years with the rheumatism in the shoulders, he tried them and was cuted at once, when all medical aid had failed. I shall ever regard your gaivanic and magnetic presents as my most valued fireds. We are all mow in perfect bealth. Your affectionate daughter.

APOPLEXY AND PARALYSIS.

The following case is of a deeply interesting character, and has attracted the stitention and examination of some of

now in perfect health. Your affectionate daughter,
CAROLINE E. BELL."
AROLINE E. BELL."
The following case its of a deepty interesting character, and has attracted the attention and examination of some of the first physicians of New-York and Brooklyn;
Capi. ANDREW J. F. Tomas, residing at No. 70 Bridge-at, Brooklyn, L. L., at in his 7ch year. He has generally enjoyed robust health, but about three years since it began to fait; a general weakness and lassitude affected him, accompanied with depression of spirits, loss of appetite, inability to sleep, &c. Dr. John W. Francis, of New-York, was consulted. The usual remedies, such as copious bleeding, &c. were recommended, but shortly after Capi. Tombs fell down insensible in the street, with a severe apopiectic fit. On recovery, he noticed that a portion of his side was spirarently dead; and on farther examination his physicians pronounced his case to be that of combined. Apoplexy and Paralysis. He was now unable to walk without assistance; he could neither feed nor dress hinteelf alone, was unable to articulate distinctly, and his sight was impaired. The family of Capi. Tombs were induced to try the Galvanic Rings and Magnetic Fluid, and for this purpose procured a pair of the Rings for the hands, a pair of Bands for the limbs, and one bottle of the Fluid. In twenty-four hours after using these articles, feeling was perceptible in the paralyzed parts, and perspiration broke out. In five days he was enabled to raise his arm and use bits hand, and in three weeks he was able to walk alone. A period of nearly six months has now elapsed, during which time no symptom of Apopiexy has been apparent; he is enabled to take regular exercise, and all his impaired faculties have been restored.

Dr. A.H. Christie:—Dear Six-I feel it a duty to state, for the benefit of the public, that your Galvanic Remedies, as applied by she Rings and Magnetic Fluid, have entirely cured my son, now eleven years old, of the most sever and alarming Fits, to which he bas been subject for the last

cured my sur, now eleven years old, of the most severe and alarming Fits, to which he has been subject for the last six years. He has often had from twelve to fifteen in one day, sometimes accompanied with the most dreadful screech-ing, at the same time a choking in the throat, and pain in the region of the heart. His mother and myself have long des-paired of his life, but through the means of Providence and your remedies, he is now quite well, and I sincerely be-

lieve his cure will be permanent.
I am very respectfully yours.
GEORGE WHITE, 101 Charles-st.

Mem-York, Nov. 13,1845.

The following fork HEADACHE.

The following fork HEADACHE.

The following ordificate is from the lady of Capt. John F.

Strain, one of the most respectable citizens of Albany, N.

Y. Reference can be given to many others, mostly ladies, who seem peculiarly affected with this maisdy.

This is to certify that I have been affected for several years past with the Sick Headache, which distressing complaint has confined me to the bed from one to two days in that time. For one month past I have morn Dr. Christie's Galvanic Rings, and occasionally using the Magnetic Find. am happy to say that I have not been troubled with the sick headache since.

VEGETABLE ONTMENT.

A MONG the diseases to which this important Ointment is
A scapied are the following: Sore Throat, Bronchitts,
Glandular Swellings, Erysipeiss, Shingles, Felons, Bingworms, Salt Rheum, Swelled and Broken Bersats, Sore Nipples, Fever Sores. Milising Sores, Rheumanism, Gout, inflammation of the Eyes, Inflammation of the Bowels, Plues,
Scrothuous Sores, Suras, Sealds, Brulses, and Ireah cui
Wounds.

Fowerful and perveding as this Ointment is, addressing
itself to so many and so formidable diseases, it is only to be
applied agreeable to directions to satisfy the most crystlows that it is an important remedy for all the purposes set
forth. The obvious reason of its power and efficary in so
many and so formidable diseases is, in its socretizal potency
to reduce and subdue Inflammation, which is the exciting
and permanet cause. This removed, the functions of nature
resume a healthy action, and a speedy cure is the result.
This Ointment is purely vegetable, and although powerful,
yet mild in its operations commencing a soothing influence
wherever applied. It may be administered with perfect
asfety in any stage of health, from the infant to the most
aged person. It will retain its efficacy in all climates, and
any period of time unimpaired. Every family and the crows
of anys should be furnished with this Ointment
Good, competent and responsible agents are wanted for
each and every State in the Union, to whom liberal terms
will be given. None need apply without the most satisfactory references.

All applications for agencies or the Ointment may be addressed to the subscribers at their depot, No. 33 Cortland-at,
New York.
